DUB-1 CHORD VOICE

ENV again, and again: the stab's sound, its filter, its FM, its LFO, its Vary, as of format 36 (the Chord filter page). FM-1 firmware.

Chord filter 3/5: the stab's sweep drawn; the LFO on Reso, its reach and its dot on the knob.

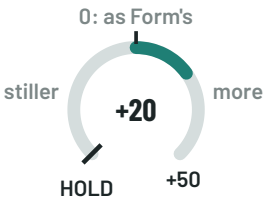

Chord FM 4/5 on Saws: not FM, Colour alone; the others grey.

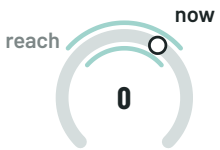

Chord LFO 5/5: what it did, now (the dot), where the wave goes.

VARY: A TRIM

THE MOVING KNOB

its own: its teal's end

1 · THE VOICES `ALGORITHM, a chord page`

Round, a click a voice; matched in level. Each piece keeps its own. (On the Chord LFO page ALGORITHM is its Target.)

SAWS	Two saws a voice, 7 cents apart.
KEYS FM	An electric piano, brighter as it's struck.
ORGAN	Four drawbars, longer.
PAD	The saws swelling in, long.
BELL FM	FM at 3.5, the clang dying first.
TONEWHEEL	Drawbars, a percussion and a key click at the strike, a rotary speaker turning.
NOISE	Noise and a little saw through the resonant filter.

2 · THE CHORD VOICE PAGE `ENV again`

The strike, the length, the colour; kept when the voice changes.

ATTACK KNOB 1	The strike: 0 the voice's snap, up to a slow swell. `0 – 100`
DECAY KNOB 2	How long each stab rings, times the voice's own (an Organ, a Pad longer); the filter closes within it. `0 ~60 ms – 100 ~1.5 s`
COLOUR KNOB 3	The voice's own colour, as on the FM page. `-50 · 0 the voice's · +50`

3 · THE CHORD FILTER PAGE `ENV a third time`

The low-pass and each stab's sweep: bright, darker within ~50 ms.

CUTOFF KNOB 1	Darker or brighter than the piece's own. `-50 · 0 the piece's · +50 (±2.75 octaves)`
RESO KNOB 2	The filter's resonance, around the voice's. `-50 · 0 · +50`
ENV KNOB 3	How far each stab opens it (Saws: 2.5 octaves). `-50 none · 0 the voice's · +50 twice`
ENV DECAY KNOB 4	How quickly it closes, around Decay's. `-50 ×1/16 · 0 · +50 ×16 (12.5 a doubling)`

4 · ITS LEVEL, ITS STRIP `OCT · SEL`

OCT- / OCT+	On any chord page: its level, 5 a press. Both together: muted, or back.
THE STRIP	SEL, white 1 (F3) held: the chord's Level, Echo, Plate, Filter (sheet 2).
ENV HELD	0.5 s, a **nudge**: the voice and filter knobs a step (FM: Ratio, Feedback too). 1.5 s, a **shake**: another voice, all a big step.

5 · THE CHORD FM PAGE `ENV a fourth time`

Four sine operators (sheet 5 draws the algorithms). On a voice not FM the page says so; Algo, Ratio and Feedback grey and resting.

ALGO KNOB 1	Which operators modulate which: the voice's own, the classic eight, or two. `Voice · 1 – 8 · 2-op`
RATIO KNOB 2	Operators 3 and 4's pitch; grey on two operators. `-50 half · 0 · +50 twice`
FEEDBACK KNOB 3	Op 4 on itself, from the voice's own: pure to gritty. `0 – 100`
COLOUR KNOB 4	Every voice's own: the saws' detune, FM brightness, the organs' upper drawbars, the noise against its saw. `-50 · 0 the voice's · +50`

6 · THE CHORD LFO PAGE `ENV a fifth time`

Two moves at once: a **wave**, a sine locked to the bars, and a **wander**, slow and random (a new place every 8 to 32 bars, glided to). How far: Form's Drift.

DRIFT KNOB 1	More or less of Form's Drift for this LFO; far left **Still**. The filter about an octave either way at Form's 50 and this 0. `Still · 0 as Drift · +50 twice`
WAVE KNOB 2	The share: wander to wave, the reach the same. `0 the wander · 50 half each · 100 the wave`
RATE KNOB 3	How long the wave, on the bars. A switch. `1 bar (a redonda, whole) · 2 · 4 · 8 · 16 · 32 bars`
TARGET KNOB 4	What it moves (also ALGORITHM). On Reso and Colour as far along their knob (an octave: a 5.5th of the sweep). TO CUTOFF on the rule. `Cutoff · Reso · Colour`
MOVING KNOB	The Target's knob (Cutoff or Reso on the filter page, Colour on the FM page): its reach two pale lines either side of the ring, a white dot where it is now.

7 · VARY `the Chord page's KNOB 4`

A trim on Form's Vary (sheet 11). Centred: 0 the notch.

0	As Form's Vary (the pieces' own: 0 to -45).
RIGHT	The stab pattern turns more often (every two bars it may move a step, gain or lose a stab); more throws.
LEFT	Stiller: fewer turns and throws, fewer stabs and bars left out (never more than Form's Vary leaves out).
HOLD	Far left (the word inside the ring): never, whatever Form says. Every stab of the pattern played, no throws but a fill's last.

ENV, AGAIN AND AGAIN

Chord › Chord voice › Chord filter › Chord FM › Chord LFO › Chord; ENV blinks past the first. GLO held 1.5 s: the piece back to its recipe.

THE SCREEN

On the Chord and Chord voice pages, the chord alone: its own ripples in teal (or its scope, its spectrum) and its lane.
